

# Forest Ranch Charter School

~ elevate your education

August 1, 2016

Dear Families, Community Members, and Supporters,

It is Annie B's Community Drive time again; one of the few times that a dollar is worth more than a dollar. In the past, your contributions to Annie B's have helped us implement and support several important programs. This is the final year of Annie B's and we hope that the improving economy finds you able to continue or maybe even increase your support of our growing, thriving school.

Classrooms 9 and 10 completed.

Our capital expansion, begun in 2013, comes to a close this year with the completion of phase two. In addition to the six original classrooms on our site, we added four more and a portable bathroom as well. These ten classrooms ensure that we can house both our K-5 students and our new middle school (6-8) students. Additionally, we have extra space for small intervention groups, electives, art, music, and science education. Annie B's funds are vital in paying for this expansion. Please help support our growth with your dollars today.

This campaign, managed by the North Valley Community Foundation (NVCF), is extremely valuable to our local non-profit organizations. By providing a percentage match, the NVCF makes your donation during Annie B's even more valuable. Donate today online, in person, or via US Mail – we need your support to fulfill our mission of providing a community school that allows each student to maximize their learning potential in a safe and supportive environment.

Our brand-new toilet building is almost ready to use.

Thank you for your support,

Lisa Speegle, CFO/CBO
